.....
.....

To:

The Director ,
Uttar Pradesh New and Renewable Energy
Development Agency (UPNEDA)
VibhutiKhand, Gomti Nagar, Lucknow- U. P.

Subject: -Offer in response to e-tender specification No: UPNEDA/SHM (W-LED) /2019

Sir,

We hereby submit our offer in full compliance with terms & conditions of the above e-tender. A blank copy of the e-tender, duly signed on each page is also submitted as a proof of our acceptance of all specifications as well as terms/ Conditions.

We confirm that, we have the capability to supply, install and carryout 5 years comprehensive warranty maintenance of **more than** **Solar PV White- LED High Mast Lighting systems in 4 months and** **numbers in a year.** (Supporting document in proof of capacity should be attached)

The e-tender is to be uploaded in two separate files named **Part-I for technical bid & Part-II for Financial Bid** only.

(Signature of Bidder)
With Seal

3. Check list of Annexures

(The following information/documents are to be annexed and flagged by the Bidders along with the BID)

S.N.	Annexure No	Particulars	Yes/No, Flag No.
1.	Annexure-I (a)	Details of Tender document fees (Demand Draft no, date, amount and bank name)	
	Annexure-I (b)	Details of Earnest money (bank guarantee no. and date, (valid for four months))	
2.	Annexure-II (a)	The bidder is a Manufacturing Company/Firm/ Corporation Registered in India of SPV Cells / Modules/ Battery / PV System Electronics (conforming to relevant National / International Standards) (A copy of registration certificate from authorized organisation i.e. DIC / NSIC / Directorate of industries is to be enclosed) OR A PV System integrators working in the field of SPV Off-grid LED lighting systems, having experience at least 3000 nos. Solar PV LED Lighting Systems should have been installed / commissioned. (A copy of the order and certificate indicating its successful execution and performance to be enclosed)	
	Annexure-II (b)		
3.	Annexure-III	Following Test Certificates & Reports for components specified in technical bid (Test Certificate should have been issued on or after 01 April 2016)	
		i. SPV Modules	
	III(a)	a) IEC 61215 edition II/ IS 14286 for Crystalline Modules	
	III(b)	b) IEC 61730 Part 1 & 2	
	III(c)	c) STC Performance Report –I V curve from a MNRE/NABL accredited test lab.	
	III(d)	ii. Batteries – MNRE/NABL/IEC authorized test centre report for relevant IEC 62133-2012 or BIS recognized lab (as applicable)	
	III(e)	iii. Luminaries/ Balance of System from a MNRE/NABL accredited LM-80-08 for LED	
	III(f)	LM-79-08 for 18 watt Luminaire	
	III(g)	IP 65 Luminaries and charge controller housing	

4.	Annexure-IV	Bidder should have Test Certificate for the complete White- LED Solar PV High Mast Lighting System from a MNRE / NABL accredited test center (Test Certificate should have been issued on or after 01 April 2016)	
5	V	Charge controller including BMS : The test report of BMS meeting the tender requirement should be submitted from any of the NABL/MNRE Accredited Testing Lab.	
6.	Annexure-VI	A copy of valid GSTIN registration certificate .	
7	Annexure-VII	Overall Average Annual Turnover of the Company/Firm/ Corporation in three financial years, A summarized sheet of turnover of three Financial Years i.e. 2015-16, 2016-17 and for 2017-18, (audited) certified by registered CA.	
8.	Annexure-VIII	A summarized sheet of cumulative Financial experience of Years i.e. 2015-16, 2016-17 and 2017-18, in PV LED lighting systems/power plants certified by registered CA	
9.	Annexure-IX	Others XIX(i). An undertaking that the service centres will be opened in allotted district .	
10.	Annexure-X	Bidder should have ISO 14001 AND ISO 9001 certified company.(Certificates should be enclosed)	

* Please flag the annexure and write flag number in the box.

Note:

- Bids received without supporting documents for the various requirements mentioned in the tender document may be rejected.
- No extra paper should be submitted in e-tender as well as with hard copy.
- If any paper certificate/document is not clear in scanned uploaded the tender document may be rejected (scanning of paper are not less than 150 dpi in black & white).
- Hard copy of tender document should be page numbered and in proper bidding and all annexure and their flag along with tender fees and EMD should be in proper order and also uploaded in relevant files of e-tender.

(Signature of Bidder)
With Seal

4. Particulars of e-tender

1.	e-tender no.	UPNEDA/SHM (W-LED) /2019
2.	Particulars of the work	Supply, installation, commissioning and 05 years warranty with comprehensive maintenance of Solar W-LED based high mast lighting systems at the identified sites by Uttar Pradesh New And Renewable Energy Development Agency (UPNEDA)
3.	Period of work	Within 4 months from the date of award of work.
4.	Last date and time of submission of e-tender on web portal	20.02.2019 up to 6.55 PM
5.	Period of validity of rates for acceptance	4 months from opening of financial bid
6.	Date and Time of opening of e-tender (Technical bid.)	15.03.2019 at 11.30 AM
7.	Date and Time of opening of e-tender (Financial bid.)	19.03.2019 at 3.30 PM

1. Bidders are advised to study the e-tender Document carefully. Submission of e-Bid against this tender shall be deemed to have been done after careful study and examination of the procedures, terms and conditions of the tender Document with full understanding of its implications.
2. The e-Bid prepared in accordance with the procedures enumerated in ITB Clause 15 of Section-I should be submitted through e-Procurement website <http://etender.up.nic.in>.
3. The e-Bids will be electronically opened in the presence of bidder's representatives, who choose to attend at the venue, date and time mentioned in the above table. An authority letter of bidder's representative will be required to be produced.
4. In the event of date specified for e-Bids opening being declared a holiday for UPNEDA's office then the due date for opening of e-Bids shall be the following working day at the appointed time and place.
5. All the required documents including Price Schedule/BOQ should be uploaded by the e-Bidder electronically in the PDF/XLS format. The required electronic documents for each document label of Technical (Fee details, Qualification details, e-Bid Form and Technical Specification details) schedules/packets can be clubbed together to make single different files for each label. All the enclosures should be scanned and uploaded with bid.
6. The companies/firms who are registered at e-Procurement portal for e-tendering with U.P. Electronics Corporation Ltd. (UPLC),10, Ashok Marg, Lucknow (UP) would only be eligible for participating in this e-tender. All companies/firms who have not registered themselves with UPLC for e-tendering till date can get their registration done. The companies/firms may contact the UPLC officials on phone numbers 0522-2286809, 0522-2288750 (O) 0522-4130303 (Extn: 303, 304 & 307), for their Registration/Digital Signature Certificate related queries.

- 4.1.4 The original copy of uploaded document i.e. First part-1 (Part-A) is to be submitted by Post /courier/by hand to UPNEDA HQ before opening of technical bid.
- 4.2 EXPENSES OF AGREEMENT: A formal agreement for a period of 01 (one) year shall be entered into between UPNEDA and the contractor/ bidder for the proper fulfillment of the contract. The expenses of completing and stamping of the agreement shall be paid by the successful bidder.
- 4.3 DEADLINE FOR SUBMISSION OF BIDS: Bids must be uploaded by the tenderer in the date; time and address specified in the e-tender notice/ tender documents.

(Signature of Bidder)
with SEAL

SECTION 5: e-tender OPENING AND EVALUATION

5.1 OPENING OF e-tender

The procedure of opening of the e-tender shall be as under:

- 5.1.1 First part-I (part-A) uploaded having e-tender specification no. and super scribed as “Technical bid” shall be opened at the time and date mentioned in the e-tender notice by UPNEDA’s representatives in the presence of Bidders, who choose to be present.
- 5.1.2 Second part-II (Part-B) containing Financial Bid shall be opened (after obtaining clarifications and establishing technical suitability of the offer) as per schedule. Second part of only those Bidders shall be opened whose first part (part-B) shall be found commercially clear and technically suitable.

CLARIFICATION OF e-tender

- 5.2.1 To assist in the examination, evaluation and comparison of bids the UPNEDA may at its discretion ask the bidder for a clarification of its bid. The request for clarification and the response shall be in writing.
- 5.3 UPNEDA reserves the right to interpret the Bid submitted by the Bidder in accordance with the provisions of this document and make its own judgment regarding the interpretation of the same. In this regard UPNEDA shall have no liability towards any Bidder and no Bidder shall have any recourse to UPNEDA with respect to the selection process. UPNEDA shall evaluate the Bids using the evaluation process specified in this document or as amended, at its sole discretion. UPNEDA’s decision in this regard shall be final and binding on the Bidders.

Signature of Bidder
with seal

SECTION-6: PROCEDURE FOR FINALIZATION OF BID

6.0 The Procedure for Finalization of BID would be as follows:

6.1 Finalization of BID:

- First the Technical bids shall be opened and evaluated.
- Then the price bid of technically qualified bidders shall be opened.
- The lowest rate (L-1) will be the approved rates.

6.2 Finalization of Empanelment:

- The lowest rate (i.e. L-1) received (and in turn approved by the competent authority) would be the “Approved Rate”.
- “Approved Lowest Rate” would be offered to those lowest bidders (i.e. to L-2, L-3, L-4 and L-5 only in both MSME and General Categories) having price not more than 15% of lowest approved rates (L1) if they agree to work at L-1 approved rate will be empanelled .
- Maximum 20 % of the total quantity purchased in three years has to be distributed equally amongst successful micro and small industries/ firms bidders. Therefore 6.5% of the total order quantity for this year shall be awarded amongst the micro and small industries qualified firm/firms at the lowest approved rate subject to their consent at to work on lowest rate and their capacity. If MSME category bidder will be lowest one (L-1) then L-1 will be awarded 50% of 6.5% of MSME work order. The remaining 50% of 6.5% of MSME quantity shall be awarded among others qualified MSME firms.
- The bidder other than MSME will be awarded in remaining of 93.5% of total bid quantity. The lowest bidder other than MSME firms qualified and agreed on approved rate L-1 shall be awarded 50% of 93.5% or as per its capacity given in the bid, whichever is lower and remaining 50% of 93.5% shall be awarded equally in other empanelled bidders or as per its capacity given in the bid.
- If other than MSME category bidder will be L-1 then L-1 will be awarded 50% of 93.5% of work order. The remaining quantity shall be awarded equally among others qualified other than MSME firm.
- UPNEDA will assign districts to the short listed contractor/ bidders /suppliers in general category but in case of MSME firms, they can select their own choice of districts because of less quantity to be assigned to them. UPNEDA will place orders on the contractor/ bidder. UPNEDA may stagger supplies in a district depending on readiness of each village/site. UPNEDA will provide the beneficiary/site list to the contractor/ bidder at the time of placing of work order or within one week of assigning of work order.
- Training of the users and entrepreneurs/ operators will be arranged by the contractor/ bidder at their own cost.

6.3 If required UPNEDA reserves the right to negotiate with (lowest) L-1 bidder before finalization of the tender.

6.4 UPNEDA reserves the right at the time of awarding the contract to increase or decrease the quantity of goods and locations of supply without any change in price or other terms and conditions.

6.5 UPNEDA reserves the right to accept any bid and to reject any or all bids.

6.6 NOTIFICATION OF AWARDING THE CONTRACT :

List of successful Bidder(s) for contract shall be displayed on UPNEDA's website and shall be intimated in writing to the contractor.

6.7 CONTRACT

Before execution of the work, a contract agreement for execution of the work shall be signed by the Bidder with UPNEDA within 15 days of communication from UPNEDA. In case agreement is not executed within the stipulated time, the earnest money will be forfeited.

Signature of Bidder
with seal

PART 3 : GENERAL CONDITIONS OF CONTRACT

1.0 In the deed of contract unless the context otherwise requires:-

1.1 UPNEDA shall short list the successful bidder (s) on "Rate Contract" basis after verifying their capacity. The Project shall be executed by UPNEDA. The successful bidder (s) shall have to sign the Contract with Uttar Pradesh New and Renewable Energy Development Agency, U.P. (UPNEDA).

DEFINITIONS

1.2 "UPNEDA" shall mean The Director of UPNEDA or his representative and shall also include its successors in interest and assignees. The "Contractor" shall mean (successful bidder) i.e. the person whose e-tender has been accepted by UPNEDA and shall include his legal representatives and successors in interest.

1.3 The agreement shall be on turn-key basis. The work shall be completed within 04 (four) months from the date of placement of work order. However "UPNEDA" may in case of urgency ask the bidder to complete the work earlier, with the mutual consent of the contractor/ bidder. In case the contractor/ bidder fails to execute the said work within stipulated time, "UPNEDA" will be at liberty to get the work executed from the open market without calling any tender/ e-tender and without any notice to the contractor/ bidder, at the risk and cost of the contractor/ bidder. Any additional cost incurred by "UPNEDA" shall be recovered from the contractor/ bidder. If the cost of executing the work as aforesaid shall exceed the balance due to the contractor/ bidder, and the contractor/ bidder fails to make good the additional cost, "UPNEDA" may recover it from the contractor/ bidders' pending claims against any work in "UPNEDA" or in any lawful manner.

1.4 That on the request of the contractor/ bidder and also in the interest of the organization the "UPNEDA" is authorized to extend the validity of the agreement, subject to that the request of the contractor/ bidder is received before the expiry of the agreement period, or any extended period granted to the contractor/ bidder. Maximum period of extension shall be 2 months on the same terms and conditions as contained in this agreement.

1.5 The agreement shall be deemed to be extended till the date of completion of last work order subject to the completion period as provided in the clause 1.3.

1.6 In the interest of the work and the programme, agreement executed between the contractor/ bidder and the "UPNEDA" may be extended to a mutually agreed period, if the need so arises. It shall be sole responsibility of the contractor/ bidder to get verified the quality & quantity of the supplied material at the site of delivery. No subcontract or dealership is allowed for execution of work.

2 LIQUIDATED DAMAGES

2.1 If the contractor/ bidder fails to perform the services within the time periods specified in the contract (In case of delay for any reason other than due to Force Majeure conditions or any extension thereof granted to him by UPNEDA) the "UPNEDA" shall without prejudice to its other remedies under the contract deduct from the contract price as liquidated damage, a sum equivalent to 1.0% of the price of the unperformed services for each week till 04 weeks; 2.0% for next 5 to 8 weeks and 3.0 % for 9 to 10 weeks subject to maximum 18% shall be deducted on unperformed services. If maximum penalty 18% reaches UPNEDA may consider termination of the contract. If maximum penalty 18% reaches UPNEDA may asses the progress of work and take decision where the work order is to be cancelled and debar/blacklist the firm or continue to give extension with penalty. In the case of violation of contract, UPNEDA may confiscate pending payments/ dues of the contractor/ bidder assigning specific reasons and shall also have the power to debar/ blacklist the contractor/ bidder in similar circumstances. UPNEDA may also invoke performance/security bank guarantee of 10%.

3 The contractor/ bidder shall have to comply with all the rules, regulations, laws and by-laws for the time being in force and the instructions if any, of the organization, in whose premises the work has to be done. "UPNEDA" shall have no liability in this regard.

4 FORCE MAJEURE

4.1 Notwithstanding the provisions of clauses contained in this deed; the contractor/ bidder shall not be liable for forfeiture of its performance security, liquidated damages, termination for default, if he is unable to fulfil his obligation under this deed due to event of force majeure circumstances.

4.2 For purpose of this clause, "Force majeure" means an event beyond the control of the contractor/ bidder and not involving the contractor/ bidder's fault or negligence and not foreseeable. Such events may include, but are not restricted to, acts of Government either in its sovereign or contractual capacity, wars or revolutions, fires, floods, epidemics, quarantine restrictions and fright embargoes.

4.3 However, If a force majeure situation arises, the contractor/ bidder shall immediately notify the "UPNEDA" in writing. The decision of the competent authority of UPNEDA in above conditions shall be final.

5 The High court of Judicature at Allahabad and Courts subordinate thereto, at Lucknow, shall alone have jurisdictions to the exclusion of all other courts.

6 The contractor/ bidder shall not, without the consent in writing of "UPNEDA", transfer, assign or sublet the work under the contract or any substantial part thereof to any other party.

- 7 "UPNEDA" shall have at all reasonable time access to the works being carried out by the contractor/ bidder under the contract. All the work shall be carried out by the contractor/bidder to the satisfaction of "UPNEDA".
- 8 If any question, dispute or difference what so ever shall arises between "UPNEDA" and the contractor/ bidder, in the connection with the agreement except as to matters, the decisions for which have been specifically provided, either party may forthwith give to the other notice in writing of existence of such question, dispute or difference and the same shall be referred to the sole arbitration of the Principal Secretary/Secretary of the Uttar Pradesh or a person nominated by him not below the rank of Secretary. This reference shall be governed by the Indian Arbitration and Conciliation Act 1996, and the rules made there under. The award in such arbitration shall be final and binding on both the parties. Work under the agreement shall be continuing during the arbitration proceedings unless the "UPNEDA" or the arbitrator directs otherwise
- 9 "UPNEDA" may at any time by notice in writing to the contractor/ bidder either stops the work all together or reduce or cut it down. If the work is stopped all together, the contractor/bidder will only be paid for work done and expenses distinctly incurred by him as on preparation or the execution of the work up to the date on which such notice is received by him. Such expenses shall be assessed by "UPNEDA", whose decision shall be final and binding on the contractor/ bidder. If the work is cut down the contractor/ bidder will not be paid any compensation what so ever for the loss or profit which he might have made if he had been allowed to complete all the work included in the contract.

10 INSPECTION AND TESTS

10.1 The following inspection procedures and tests are required by the "UPNEDA" in the presence of "UPNEDA"'s representative if so desired by "UPNEDA".

10.2 The "UPNEDA" or its representative shall have the right to inspect and / or to test the goods to confirm their conformity to the contract. The special conditions of contract and/ or the Technical specifications shall specify what inspections and test the "UPNEDA" required.

10.3 INSPECTION AT WORKS.

10.3.1 The "UPNEDA", his duly authorized representative shall have at all reasonable times access to the contractor/ bidders premises or works and shall have the power at all reasonable time to inspect and examine the materials and workmanship of the works during its manufacture.

10.3.2 The contractor/ bidder shall give the "UPNEDA", 15 day's written notice of any material being ready for testing. It shall be mandatory that such notice should reach "UPNEDA" within 30 days of placement of work order. Such tests shall be on the contractor/ bidder's accounts/ expenses except for the expenses of the inspector. "UPNEDA" reserves the full rights, to waive off inspection of material.

10.3.3 The contractor/ bidder are required to get the entire lot of the ordered material inspected at one time, before the supply of the materials. In case the contractor/ bidder fails to get the entire lot inspected at one time, the total expenses of the further inspection will be borne by the supplier/contractor/ bidder. If the work order quantity is less than 50 systems, the bidder

may call the inspector to one site for inspection of material subject to the availability of all components of system at one site.

- 10.3.4 UPNEDA will bear the inspector cost at only one manufacturing plant. If a component is produced in more than one location, then the cost of positioning the inspection in the second and subsequent plants would be borne by the successful Bidder at their cost.
- 10.3.5 The inspection by “UPNEDA” and issue of dispatch instruction there on shall in no way limit the liabilities and responsibilities of the contractor/ bidder in respect of the agreed quality assurance programme forming a part of the contract.

11. WARRANTY

- 11.1 The contractor/ bidder shall warrant as per standards for quality that anything to be furnished shall be new, free from all defects and faults in material, workmanship and manufacture, shall be of the highest grade and consistent with established and generally accepted standards for material of the type ordered, shall be in full conformity with the specifications, drawing or samples, if any and shall if operable, operate properly. Nothing in clause 10 above shall in any way release the contractor/ bidder from any guarantee or other obligations under this contract.
- 11.2 Performance of Equipment: In addition to the warranty as already provided, the contractor/bidder shall guarantee satisfactory performance of the equipment and shall be responsible for the period or up to the date specified in clause 11.3 hereof after the equipment has been accepted by the “UPNEDA” to the extent for any defects that may develop such defects shall be removed at his own cost when called upon to do so by the “UPNEDA”
- 11.3 The Warranty period shall be 25 Years for the PV modules and 5 years for complete system including battery from the date of commissioning and handing over of the system. The contractor/ bidder shall rectify defects developed in the system within Warranty period promptly. In case the defects are not rectified within a week of the receipt of the complaint by the contractor/ bidder “UPNEDA” shall have full liberty to restore the system in working condition. The expenditure so incurred by “UPNEDA” shall be deducted from the contractor/ bidder pending claims, security/performance guarantee deposit or in other law full manner.
- 11.4 Since the maintenance of the system may also be taken up by the contractor/ bidder after expiry of 05 years of warranty period if the end user/ "UPNEDA" so desires, the contractor/bidder shall take up annual maintenance of the installed system.
- 11.5 The contractor/ bidder shall maintain the system under annual maintenance contract with the end user.
- 12. Notice statement and other communication send by “UPNEDA” through registered post or fax or Email to the contractor/ bidder at his specified addresses shall be deemed to have been delivered to the contractor/ bidder.

13. Any work which is not covered under this contract but is essential required for the completion of job (To the satisfaction of UPNEDA) shall be carried out by the contractor as extra item or which payment shall be made separately at the rates decided by UPNEDA.
14. The work shall be carried out by the contractor/ bidder as per design and drawings approved by "UPNEDA", wherever, necessary, the contractor/ bidder shall submit relevant designs and drawings for approval of "UPNEDA", well in advance. Work carried out without UPNEDA's approval shall not be accepted and the "UPNEDA" shall have right to get it removed and to recover the cost so incurred from the contractor/ bidder.
15. The contractor/ bidder shall provide one copy system manual containing instruction manual/ routine maintenance manual and maintenance record of the systems with each unit supplied or installed, this shall be both in English and Hindi language. (The draft of pass book shall be approved by UPNEDA)

The following minimum details must be provided with manual:

- (a) About the complete photovoltaic system including PV modules, battery and electronics
 - (b) Do's and Don'ts
 - (c) Clear instructions on regular maintenance and trouble shooting of the system
 - (d) Name & address of the contact person in case of non-functioning of the system.
 - (e) About LED lighting
16. The contractor/ bidder shall not display the photographs of the work and not take advantage through publicity of the work without written permission of "UPNEDA". **The contractor will also submit a soft and hard copy of photograph of system with UID number (issued by UPNEDA) written on Pole/box with handing over certificate. The photograph/ details of the systems is also to be uploaded on "RESIMS" software of UPNEDA by the contractor/ bidder as directed by UPNEDA.**
 17. PATENT RIGHT AND ROYALTIES.

The Contractor/ bidder shall indemnify the "UPNEDA" against all third party claims of Infringement of patent, royalty's trademark or industrial design rights arising from use to the goods or any part thereof.
 18. PACKING FORWARDING
 - 18.1 Contractor/ bidders, wherever applicable, shall after proper painting, pack and crate all the equipment in such manner as to protect them from deterioration and damage during rail and road transportation to the site and storage at the site till time of installation. Contractor/bidder shall be held responsible for all damage due to improper packing.
 - 18.2 The contractor/ bidder shall inform the "UPNEDA" of the date of each shipment from his works, and the expected date of arrival at the site for the information of the "UPNEDA" project offices at least 7 days in advance.

19. DEMURRAGE WHARF AGE, ETC

All demurrage, wharf age and other expenses incurred due to delayed clearance of the material or any other reason shall be to the account of the contractor/ bidder.

20. INSURANCE

The goods supplied under the contract shall be fully insured against loss or damage incidental to manufacture or acquisition, transportation, storage during transportation shall be included in the bid price.

21. TRANSPORTATION

The contractor/ bidder is required under the contract to deliver the goods to the site. Transportation, storage, safety and security of the supplied material, issuance of road permit etc. shall be the sole responsibility of the contractor/bidder.

22. TERMINATION FOR INSOLVENCY

“UPNEDA” may at any time terminate the contract by giving written notice to the contractor/bidder without compensation to the contractor/ bidder, if it becomes bankrupt or otherwise insolvent, provided that such termination will not prejudice or affect any right of action or remedy, which has accrued or will accrue thereafter to the “UPNEDA”.

23. TERMINATION FOR CONVENIENCE

The “UPNEDA”, may by written notice sent to the contractor/ bidder, terminate the contract, in whole or in part at any time for its convenience. The notice of termination shall specify that termination is for the purchaser’s convenience in the interest of “UPNEDA”.

24. APPLICABLE LAW

The contractor/ bidder shall be interpreted in accordance with the laws of the purchaser’s country i.e. India. The station of “UPNEDA” Headquarter shall have exclusive jurisdiction in all matters arising under this contract.

25. NOTICE

25.1 Any notice given by one party to the other pursuant to the contract shall be sent in writing or by fax and confirmed in writing to the address specified for that purpose in the special condition of contract.

25.2 A notice shall be effective when delivered or on the notice’s effective date, whichever is later.

26. TAXES DUTIES AND INSURANCE:

The price quoted should include all taxes, duties and Insurance expenditure etc. what so ever if any. A supplier/ contractor/ bidder shall be entirely responsible for all taxes, duties, license fees, etc. All taxes payable as per Government income tax & GST or any other tax State or Central Government norms will be payable by the contractor/Bidder what so ever. If any new tax/duty is levied during the contract

period the same will be borne by the contractor exclusively. CGST & SGST and TDS will be deducted from the payment of the contractor/ bidder as per the prevalent laws and rules of Government of India and Government of the Uttar Pradesh in this regard.

27. OTHERS:

- 27.1 All the LED's use in luminary should have same characteristics.
- 27.2 I-V curve of the each module technical details such as Voc, Isc, FF, module and cell efficiency and Pmax etc shall be supplied along-with each consignment and copy should be sent to "UPNEDA" HQ for records.
- 27.3 The Contractor/ bidder in consultation with concerned Project Officer of "UPNEDA" will conduct training programme for users, focusing on main features, operation and maintenance of the systems.
- 27.4 The Contractor/ bidder shall continue to provide spare parts after the expiry of warranty period at the users cost. If the contractor/ bidder fail to continue to supply spare parts and services to users "UPNEDA" shall take appropriate action against the Contractor/ bidder.
- 27.5 After successful supply/commissioning of the system and training, the system will be handed over to the beneficiary institutes /Panchayat etc designated by the UPNEDA.
- 27.6 It shall be the sole responsibility of the contractor/ bidder to get verified the quality & quantity of the supplied material at the site of delivery.
- 27.7 The contractor will supply, install a sample system (non-returnable & as quoted for the tender) at UPNEDA's Head Quarters/ Research and Training Centre at Chinhat Lucknow for technical performance, Evaluation, testing etc.

28. PAYMENTS:

The payments shall be made as per the following terms and conditions:

- i) 50% of the ordered value after the supply of the complete system at site and duly certified by the concerned district officer of UPNEDA as per the technical specification and terms and conditions specified in the contract.
- ii.) 35% of the ordered value after installation and commissioning of the system, establishing of service centre, along with the summary of Joint Commissioning & handing over certificate, indicating bill of material and successful commissioning duly countersigned by the designated officer and end user.
- iii) The balance 15% payment shall be released against AMC charges on annual basis kept as security deposit and to be released @1.5% at the end of every six months, for five years on satisfactory performance and timely submission of quarterly performance report .
29. In case of any ambiguity in interpretation of any of the provisions of the tender, the decision of "UPNEDA" shall be final.

(Signature of Bidder)
with seal

SCOPE OF WORK AND TECHNICAL SPECIFICATIONS:**SCOPE OF WORK:**

The scope of work includes design, supply, installation, commissioning of **Solar LED High Mast Lighting System** including 05 years comprehensive warranty maintenance in various Primary Health Center, A M N Centers, Main Roads/Chaurahas, Animal Markets, Small Markets (*Hatt*), *Panchayat houses*, *Public Drinking water Sources*, *Cross Roads/ Road Junctions*, *Fair Grounds etc.* of various districts of Uttar Pradesh as per the following specifications.

GENERAL TECHNICAL SPECIFICATION:

A Solar PV White- LED High Mast Light consist of white LED luminary of maximum 4*18 Watt (LED + Driver) as per configuration along with solar PV modules and battery of given capacity, necessary control electronics-inter connecting wires / cables, module mounting structures etc. to operate the load for dusk to dawn. The broad performance specifications of a White Light Emitting Diode (W-LED) light source based solar High Mast lighting system are given below

BROAD PERFORMANCE PARAMETERS

PV Module	Only indigenous modules shall be used in the Project. SPV module aggregate capacity 440 Wp (110 Wp X 4 Nos.) at under STC. Module Voc minimum of 21V.
Battery (Li-fe-Po4)	Lithium Ferro Phosphate battery aggregate capacity 12.8 Volt, 200AH (50AHx4 nos.) 12.8 Volt 50 Ah of one unit.
Light Source	White Light Emitting Diode (W-LED) 4x18 Watt (LED +Driver) Using LEDs which emits ultraviolet light will not be Permitted
Light Out put	White colour (colour temperature 5500-6500 K). Lumen efficacy of LED- min 135 lumens/Watt @350 mA. The illumination should be uniform without dark bands or abrupt variations, and soothing to the eye. Higher light output will be preferred.
Average duty cycle	Dusk to dawn

MINIMUM TECHNICAL REQUIREMENTS / STANDARDS**1. DUTY CYCLE**

2. The Solar PV White- LED High Mast Light system should be designed to operate for dusk to dawn.

3. SPV MODULES:

- i. **Only indigenous modules of reputed brand IEC Tested shall only be used in the project.**
Crystalline high power/efficiency cells shall be used in the Solar Photovoltaic module. The power output of the each module shall not be less than 110 Wp at load under standard test conditions (STC).
- ii. The open circuit voltage of the PV modules under STC should be at least 21.0 Volts.
- iii. Crystalline high power/efficiency cell shall be used in the Solar Photovoltaic module. The cell

efficiency should not be less than 16%.

- iv. PV module must be warranted for output wattage, which should not be less than 90% at the end of 20 years and 80% at the end of 25 years.
- v. The terminal box on the module shall be IP 65 and designed for long life out door operation in harsh environment should have a provision for opening for replacing the cable, if required.
- vi. The offered module shall be in accordance with the requirements of MNRE.
- vii. Latest edition of IEC 61215 edition II / IS 14286 for Crystalline and shall be certified by MNRE authorized test center. The bidder shall submit appropriate certificates.
- viii. PV modules must quality to IEC 61730 Part 1- requirements for construction & Part 2 – requirements for testing, for safety qualification.
- ix. Protective devices against surges at the PV module shall be provided. Low voltage drop bypass diodes shall be provided and if required, blocking diode(s) may also be provided.
- x. IDENTIFICATION AND TRACEABILITY

Each PV module must use a RF identification tag (RFID), which must contain the following information:

- (i) Name of the manufacturer of PV Module
- (ii) Name of the Manufacturer of Solar cells
- (iii) Month and year of the manufacture (separately for solar cells and module)
- (iv) Country of origin (separately for solar cells and module)
- (v) I-V curve for the module
- (vi) Peak Wattage, I_m , V_m and FF for the module
- (vii) Unique Serial No and Model No of the module
- (viii) Date and year of obtaining IEC PV module qualification certificate
- (ix) Name of the test lab issuing IEC certificate
- (x) Other relevant information on traceability of solar cells and module as per ISO 9000 series.

4. BATTERY

Lithium-Ferro-Phosphate (Li-Fe-Po4) Battery :

- (1) **The Battery pack should be indigenously manufactured/assembled and got tested as per IEC 62133-2012 or BIS 16046/16047-2015 (safety parameter of Li-Fe-Po4) latest standard from BIS recognized labs or MNRE accredited test center, (Certificate Enclosed). The cell capacity should be 3.2 volt, 10AH/ 50AH.**
- (2) **Capacity of the battery shall not be less than 12.8 V (nominal), 50 Ah at STC, 640 Watt Hour for one unit . The total capacity of battery should be 640x4=2560 Watt Hour.**
- (3) **The battery cycle life should be 2000 cycle at 95% discharge.**
- (4) BMS (Battery Management System) should be part of battery pack and battery pack enclosure should be as per standard. The battery pack should be integrated with the system in such way that it is theft proof and not removable from system. It should be installed with combination of module structure/luminaire. The height of battery pack will be approximate, 6.5 meters above the ground. The system must withstand wind velocity of 180 km/hr. The battery pack should be capable of high

rate of heat dissipations. The battery box should be acid proof and corrosion resistant, hot dip galvanized metallic box (IP 65) with anti-theft locking arrangement.

4. The battery should operate between temperature range of 0 degree C to 55 degree C
The other feature of the battery should be:

Sr. No.	Description	Specifications
1	Battery Configuration	12.8V- 200AH; LifePO4 (4*50AH)
2	Working Temperature Range (both for charging & discharging)	0-60 deg C
3	Storage Temperature Range	@ 0-25 Deg- 6 months
4	Cycle Life (Full charge to full discharge @ 25 deg C before capacity of battery falls below 75%)	more than 2000 Cycles
5	Battery Warranty	5 years
6	Capacity of Individual Cells	3.2V cell of 10 AH, 50AH
7	Type of Cell	Prismatic/Cylindrical
8	Nominal Capacity	12.8 volt - 50AH of one unit
9	Nominal Voltage	12.8V
10	Voltage Range	10.5V - 14.6V
11	Total Energy	640 WHr
12	Rated Charging current	25 Amps
13	Maximum Charging current	20 Amps
14	Maximum Discharging Current	25 Amps
15	Discharge Cut off Voltage	>10.5V
16	Over Charge Cut off Voltage	14.4V+/- 0.2V
17	Charging Time	Around 5 - 5.5 Hours

1. Light Source:

- i. The light source will be of white LED type The color temperature of white LEDs used in the system should be in the range of 5500 degree K – 6500 degree K. Use of LEDs which emits ultraviolet light will not be permitted. The temperature of heat sink should be not increase more than 20 degree centigrade above ambient temperature during the dusk to dawn operation.
- ii. The illumination should be uniform without dark bands or abrupt variations, and soothing to the eye. Higher light output will be preferred. The light output from the white LED light source should be almost constant. **The lamps, DC-DC driver and battery management system (BMS) should be housed in aluminum die-casted casing suitable for outdoor use and shall comply with IP 65.**
- iii. The lamps should be housed in an assembly suitable for outdoor use and shall comply with IP65. The LED housing should be made of pressure die cast aluminum having sufficient area for heat dissipation and heat resistant toughened clear glass/ high quality poly carbonate fitted with pressurized die cast aluminum frame with SS screws. The temperature of heat sink should not increase more than 30 degree C above

ambient temperature even after 48 hrs. of continuous operation. This condition should be complied for the dusk to dawn operation of the lamps while battery operating at any voltage between the loads disconnect and charge regulation set point.

- iv. High power LED of minimum 1 watt each capacity capable to withstand maximum 1 amp driving current having lens angle greater than 120 degree shall be used. The LED of reputed make Having LM 80 and LM 79 test report shall only be used.
- v. The LED efficacy should be more than 135 lumen / watt @ 350 mA, the total luminaire efficacy should not be less than 125 lumens per watt. (Including all losses) i.e the lumens output of each luminaire should not be less than 2250 lumens.
- vi. All LED in circuit must be connected in series only. It must incorporate fail short mechanism in all LEDs The LEDs used in the luminaire should have life time more than 50,000 hrs.
- vii. The lumen depreciation of LED shall not be more than 30% even after 50,000 burning hours.
- viii. Power consumption of the each LED Luminaire / Lighting unit shall not be more than 18 W (including LED Driver power loss).
- ix. The lux level over a 16 meter of radius should not be less than 5% at the point mentioned below in the lux level distribution chart.

The chart is plotted for 6.5 meter high, with lamp bracket arm of 1 meter with 5 degree. Grid spacing 1x1 meter. Maintenance factor 0.8.

The average Lux should be min 6 lux and average/min = min 0.25

- x. Other Parameters :
 - ◆ LED DC current regulation – better than 3 %
 - ◆ Input – 12 V DC
 - ◆ Driver Type- DC-DC (as per IEC 62384)
 - ◆ CRI - 70 % Typical
 - ◆ Lighting quality- Free from glare and flickering and UV
 - ◆ Ambient temp– upto 50 deg
 - ◆ DC to DC convertor efficiency > =90 %
- xi. The connecting wires used inside the luminaries, shall be low smoke halogen free, fire retardant e-beam cable and fuse protection shall be provided at input side.
- xiii. Auto resettable reverse polarity protection shall be provided
- xii. LED lighting unit shall comply to LM -79-08 Standards and copy of test certificate should be submitted.
- xiii. The make, model number, country of origin and technical characteristics of white LEDs used in the lighting system must be furnished.
- xiv. The luminaries must have light distribution polar curve. The bidder should submit the polar curve of luminaries in LM 79 report.
- xv. The luminaire should be tested for all type tests as per IS 10322 Part 5 Sect 3 or IEC 60598-2-3 standards.

2. ELECTRONICS

MPPT/ PWM charge controller to maximize energy drawn from the Solar PV array. The

MPPT/ PWM charger shall be microcontroller based. The MPPT/ PWM should have four stage charging facilities i.e Bulk, Absorption, Float and Equalization. The auto equalization facilities for battery at every (30+_2 days) and provision to verify it during testing should be incorporated. The PV charging efficiency shall not be less than 90% and shall be suitably designed to meet array capacity. The charge controller shall confirm to IEC 62093, IEC 60068 as per specifications.

- i. MPPT Charge controller to maximize energy drawn from the solar PV array. The MPPT Charger should be microcontroller based. The charge controller should have:

Solar Charge Controller

Sr No.	Description	Specification
1	Charge controller Type	PWM/ MPPT type -Maximum Power point Tracking EN 50530:Performance evaluation of maximum power point tracking (MPPT)
2	Charge controller Rating @ Related Voltage	10 Amps
3	Module Rating	110 Wp @ 16.4 volt \pm 0.2 v, if MPPT is not used with positive tolerance
		36 Cell configuration
		Voc- > 21 Volts
		Vmp-16.4 volt \pm 0.2 at STC without MPPT

- i. Protection against polarity reversal of PV array and battery, Over Current, Short Circuit, Deep Discharge, Input Surge Voltage; Blocking Diode protection against battery night time leakage through PV Module
- ii. Electronics should operate 21 volt and 10 volt and its Euro efficiency should be at least 90 %.
- iii. The system should have protection against battery overcharge and deep discharge conditions. The numerical values of the cut off limits of lower voltage should not be less than 11.2 Volt and over voltage cutoff should be 16.5 V
- iv. Full protection against open circuit, accidental short circuit and reverse polarity should be provided
- v. Charge controller shall have automatic dusk-dawn circuit based on spv module as sensor for switching on/off the high mast light without manual intervention. The sensor must not get triggered by impulse lighting like lightning flashes and firecrackers.
- vi. The self-consumption of the charge controller shall not be more than 20 mA at rated voltage and rated current.
- vii. Adequate protection shall also be incorporated under no-load conditions (i.e. when the system is ON & the load (LED Lamp is removed)

- viii. The system should be provided with 2 LED indicators: a green light to indicate charging in progress and a red LED to indicate deep discharge condition of the battery. The green LED should glow only when the battery is actually being charged.
- ix. All capacitors shall be rated for max. temp of 105° C.
- x. Resistances shall preferably be made of metal film of adequate rating.
- xvii. Device shall have adequate thermal margin should be at least 25 degree below the allowable junction temperature while operating at an ambient temperature of 55 degree C and full load.
- xi. Fibre glass epoxy of grade FR 4 or superior shall be used for PCB boards.

Preferably the electronics (both charge controller and driver) should be housed in a separate box and installed on pole suitably in order to perform the repairing of electronics quickly without removing the whole luminaire.

Technical Requirement/Standards

Item / System	Applicable BIS /Equivalent IEC Standard Or MNRE Specifications	
	Standard Description	Standard Number
Solar PV Systems Charge Controller/MPPT Units and Protections	Crystalline Silicon Terrestrial PV Modules	IEC 61215 and 61730 part-1 and part-2, IS 14286 Test Certificates / Reports from IECQ / NABL accredited laboratory for relevant IEC / equivalent BIS standard. IEC 62093 Equivalent BIS Std.
Storage Batteries	General Requirements & Methods of Testing Tubular Lead Acid /Capacity Test Charge/Discharge Efficiency Self-Discharge	IS 1651/ IS 13369
Cables	General Test and Measuring Method PVC insulated cables for working voltage up to and including 1100 V UV resistant for outdoor Installation	IEC 60189 IS 694/ IS 1554 IS/IEC 69947
ChargeControllers/ Luminaries		IP 65
LED	LED performance Luminary performance	LM -80-08 LM 79-08

2.4 MECHANICAL HARDWARE

- (i) A galvanized metallic frame structure to be fixed on the pole to hold the SPV module(s). The frame structure should be fixed at 30 degree from horizontal facing true south.
- (ii) The pole should be hot deep Galvanized Iron Octagonal pole in single length for 7.0 mtr. Height as per specification as under:
 - (a) The Octagonal poles shall be Hot deep galvanized. The material of pole shall be as per specification of BS EN 100025 , ISO 1461 .
 - (b) The size of the pole shall be min 75 mm at Top side, 150 mm at bottom side with thickness of 4 mm minimum.
 - (d) The base plate of pole shall be of size 260 X 260 X 18 mm duly welded to pole.
 - (f) Pole should have the arrangement at top for mounting of Solar panel of design capacity with mounting structure at an angle of latitude $\pm 2^0$ degree.
 - (g) The four LED luminaire shall be mounted on this pole at height of 6.5 meter from pole bottom.
 - (h) The pole shall be mounted on suitable RCC foundation at least 1.25 meter deep and 0.5 meter above ground with 4/6/8 bolt of min 20 mm size
 - (i) the Nut -Bolts in battery box and panel structures should be proper riveted to ensure the theft.
 - (j) The design and foundation details of the pole shall be got approved from UPNEDA before execution of work.

vi) BATTERY BOX :

The battery box should be acid proof and corrosion resistant, hot dip galvanized metallic box (IP 65) with anti-theft locking arrangement. The size of box should be as per battery pack size. The battery box is to be properly rest/mounted on pole approx. 6.5 meters of height from ground level. The edges of box should be turned properly to give smooth edge and good strength. Components and hardware shall be vandal and theft resistant. All parts shall be corrosion-resistant.

vii) ELECTRIC CABLE

The electric cable used shall be twin core PVC insulated water and UV resistance copper cable of minimum size 1.5mm. Cable shall meet IS 1554 / 694 Part 1:1988 & shall be of 650 V/ 1.1 kV

2.5 OTHER FEATURES

A toll free number (i.e. 1800 180 0005) of IVRS of UPNEDA and 14 digit UID number of minimum computer font size 72 or 13 mm (issued/provided by UPNEDA) is to be embossed/ punch on pole between 1-1.5 meter above from ground level by contractor/ bidder, which in case of non-working/ operational problems etc of system will be dialed by the beneficiary etc to lodge a

complaint in respect of system problems. The IVRS will divert the complaint to Contractor/ bidder through E mail, SMS etc. The contractor/ bidder will have to rectify the same to make/ restore the system to working position within 72 hours in the warrantee period of 5 years, failing which the system may be get rectified on contractor/ bidder cost and the cost will be recovered by contractor/ bidders pending claims what so ever and appropriate action as per noncompliance etc of agreement will be considered/taken.

2.6 INSTALLATION OF SYSTEM:

The system should be properly installed at site. The SPV module mounting structure along with telescopic octagonal pole should be properly grouted depending upon the location and requirement of the site. The grouting should be such that it should withstand the maximum wind speed /storm of 180 kmph. The pole should be rest on a suitable foundation. (RCC Foundation size 600 mm x600 mm x 1250 mm deep and 500 mm above the ground level. must have 4/6/8 nos. foundation bolts of 1200 mm & 20mm dia.) Adequate space should be provided behind the PV module/array for allowing un-obstructed air flow for passive cooling. Cables of appropriate size should be used to keep electrical losses to a bare minimum. Care should be taken to ensure that the battery is placed with appropriate leveling on a structurally sound surface. The control electronics should not be installed directly above the battery. All wiring should be in a proper conduit or capping case. Wire should not be hanging loose. Any minor items which are not specifically included in the scope of supply but required for proper installation and efficient operation of the SPV systems is to be provided by the manufacturer as per standards.

2.7 WARRANTY

The mechanical structures, electrical works including power conditioners/inverters/charge controllers/ maximum power point tracker units/distribution boards/digital meters/ switchgear/ storage batteries, etc. and overall workmanship of the SPV power plants/ systems must be warranted against any manufacturing/ design/ installation defects for a minimum period of 5 years.

Traceability of the product to be supplied

In order to prevent the misuse of the product such as unauthorized sale or diversion to the open market, the following incorporation shall be made in the product.

- a) Engraving (or) Screen printing of UPNEDA at a suitable place on the main components viz., SPV Panel, Battery, LED Lighting Units to be used in the installation of the solar high mast lighting systems.
- b) The unique system ID number as provided by UPNEDA shall be embossed or punch or permanently riveted on each pole and battery box of the system. The UID number painting or marking will not be allowed.

PART -5

WARRANTY AND MAINTENANCE

- The PV modules will be warranted for a minimum period of 25 years from the date of supply. (Output wattage should not be less than 90% at the end of 20 years and 80% at the end of 25 years).
- The mechanical structures, electrical components including battery and overall workmanship of the **Solar PV White- LED High Mast Light** Systems must be warranted for a minimum of 5 years from the date of commissioning and handing over of the system..
- The Comprehensive Maintenance (within warranty period) shall be executed by the firm themselves or through the authorized dealer/ service center of the firm in the concerned district.
- It is mandatory for the contractor/ bidder to open an authorized service center in the concerned district before the supply/installation of the system.
- Necessary maintenance spares for five years trouble free operation shall also be supplied with the system.
- The contractor/ bidder shall be responsible to replace free of cost (including transportation and insurance expenses) to the purchaser whole or any part of supply which under normal and proper use become dysfunctional within one month of issue of any such complaint by the purchaser.
- The service personnel of the Successful Bidder will make routine quarterly maintenance visits. The maintenance shall include thorough testing & replacement of any damaged parts Apart from this any complaint registered/ service calls received / faults notified in the report generated by the IVRS should be attended to and the system should be repaired/ restored/ replaced within 4 days.
- A separate Service & Maintenance passbook shall be maintained with each system as per the format provided by UPNEDA. The deputed personnel shall be in a position to check and test all the components regularly, so that preventive actions, if any, could be taken well in advance to save any equipment from damage. Any abnormal behavior of any component shall be brought to the notice of UPNEDA for appropriate action.
- Normal and preventive maintenance of the Solar PV White- LED High Mast Light systems such as cleaning of module surface, topping up of batteries, tightening of all electrical connections, cleaning & greasing of battery terminals, also the duties of the deputed personnel during quarterly maintenance visits.
- During operation and maintenance period of the Solar PV White- LED High Mast Light systems, if there is any loss or damage of any component due to miss management/miss handling or due to any other reasons pertaining to the deputed personnel, what-so-ever, the supplier shall be responsible for immediate replacement/rectification. The damaged component may be repaired or replaced by new component

PART II (Financial Bid)

**e-tender NO. UPNEDA/SHM (W-LED) /2019
FINANCIAL BID**

Name of the Firm: -----

Design, Supply, installation, commissioning and 5 years Warranty with comprehensive maintenance of Solar PV High Mast Lighting System (W-LED) based (comprising of 440 (4x110 watt) Wp module, 12.8V, 200Ah (4x50Ah), 2560 Watt Hour Li-fe-Po4 battery and 4x18 watt luminaries with pole and hardware) at identified sites of Uttar Pradesh as per Technical specifications, Terms and Conditions of the e-tender document.

S.N.	Item	Unit Rate (in Rs.)
1.	Design, Supply, installation and commissioning and 5 years Warranty with comprehensive maintenance of complete Solar PV High Mast Lighting System (W-LED) with Li-fe-Po4 battery based at identified sites of Uttar Pradesh, FOR site, as per technical specifications, terms and conditions mentioned in the tender inclusive of all taxes & duties, GST, insurance etc. what so ever. and any other job required to properly execute the complete work, under the light of bid/agreement and its validity	
Total Amount (In Figures and Words)		

NOTES:

1. Certified that rates quoted above are as per the requirement, specification terms & condition mentioned in the e-tender document.
2. The rates are inclusive of all taxes & duties, GST as per Govt. rules applicable, storage, transportation up to site, insurance etc., and any other job required to properly execute the complete work.

(Signature of Bidder)
With seal

To be uploaded in Part II.

Other document / condition, terms if enclosed will liable to be rejection of bid.

ANNEXURE-A

Model Bank Guarantee Format for Furnishing EMD

Whereas(hereinafter called the "tenderer") has submitted their offerdated..... for the supply of.....(hereinaftercalledthe "tender") against the purchaser's tender enquiry No.....---KNOW ALL MEN by these presents that WE..... of..... having our registered office at..... are bound unto..... (hereinafter called the "Purchaser) in the sum of..... for which payment will and truly to be made to the said Purchaser, the Bank binds itself, its successors and assigns by these presents. Sealed with the Common Seal of the said Bank this..... day of20..... THE CONDITIONS OF THIS OBLIGATION ARE:

- (1) If the tenderer withdraws or amends, impairs or derogates from the tender in any respect within the period of validity of this tender.
(2) If the tenderer having been notified of the acceptance of his tender by the Purchaser during the period of its validity
(3) Fails to furnish the Performance Security for the due performance of the contract.
(4) Fails or refuses to accept/execute the contract.

WE undertake to pay the Purchaser up to the above amount upon receipt of its first written demand, without the Purchaser having to substantiate its demand, provided that in its demand the Purchaser will note that the amount claimed by it is due to it owing to the occurrence of one or both the two conditions, specifying the occurred condition or conditions.

This guarantee will remain in force up to and including 45 (forty five) days after the period of tender validity and any demand in respect thereof should reach the Bank not later than the above date.

JOINT COMMISSIONING AND HANDING OVER CERTIFICATE /WARRANTEE CARD:
 (To be submitted in 3 copies)

It is hereby certified that following system has been supplied, installed, commissioned and handed over to the beneficiary as per following details:-

Sr. No.	Items	Details
1	Name of system	
2	Agreement Number and date	
3	Work Order NumberDate	
4	UID number (14 digit)	
5	Name of beneficiary (near by) with mobile number.	
6	District	
7	Block	
8	Village/Gram Panchayat	
9	Exact location of installation (land mark)	
10	Date of installation	
11	Warrantee expire on	
12	Name & Address of the Manufacturer/ Supplier of the system	
13	SPV Modules Installed Sr. No Make Model	
14	Battery (Li-Fe-Po4) Sr. No Make Model	
15	Training for operation & maintenance of the systems	Provided/Not Provided
16	Technical literature, operation & maintenance manual in English & Hindi	Provided/Not Provided
